BLIND×
Only the beautiful sounds can reach me
Sa kai Ma yu
REIJI SAKAI

A long time ago,
my grandmother told me that in this town
when a person dies, the wind blows each time.
we say that the wind is a sign of a bad omen...
Lady Ningyo*,
I beg of you, say yes!

*means "mermaid" in Japanese

even if you ask me every day in different ways, I will always decline your invitation
I don't feel the urge to go out with anyone,
and this will certainly cause you trouble
trouble ?! don't worry
you are so beautiful,
that we almost don't pay attention to your bad eye

ha ha
you are very skilful
ah ...
again
that scent ...
he's here again ...?
ha !
you are right !
that guy came here too !
he is crazy in love with you !
he really doesn't know his place !
Hey ! You !!

do you want to speak with this lady ?
hey !! come here !
A smell of dust
and of old mechanics oil...
ha ha !
the sound of the soles that wear out on the floor...
I wonder who he is ...
when the fragrance of their perfume is stronger, it is as if an alarm suddenly began to ring, informing me of their presence

what do you think, Ningyo ?
did you find your fiancée to your taste ?
Pfft !
it is just an idiot whose family lost its fortune and clinging desperately to his past life
it is better for you if you don't know him ...
um, well ...
They are all sons of good families
whatever the one I choose, it will always be at your convenience
you don't have to worry
let us take care of everything

In this world
people would rather bury their head in the sand,
than to see the dirt on it
even without a good position in life,
we just need to be beautiful and everything will be for the better
then we are nothing more than a doll trapped in a crystal box
tic tac
trr...
we would like to hear your answer today
wich one of us would you like to be marry with ?

I feel sorry for you people
but since I am in the top 5 of the best men in the city
hey !!
even if Lady Mingyo doesn't know it, doesn't it bother you to lie like this ?!
...
I am more handsome than you !
what's ?!
well
in this case, we will do it this way
I would like you to make me listen to something that I have never heard until this day. The one who will succeed will become my husband.
If it's like that, my choice will be impartial
oooh!

it's perfect !!
you will be mine before the others will even have time to do anything !
how I pity you ...
Lady Ningyo !!
I have tickets to see this famous orchestra !!
managed to get the best seats !
I've seen the concert of this orchestra every year since I am 13
I have reserved seats everytime

your "la" is completely wrong
don't you know how to tune your instrument ?
here's a song that nobody ever heard before !
I will make you listen ...
did you really believe I wouldn't realize it ?
you are just singing in minor "la"
It is the third movement of L. Marvel's symphony
I wrote you a song !
let me sing it for you
disappointed
I have never heard
there is really no sound ...
I was introduced to all kinds of music, even the most unbelievable
dear them, it started ever since my childhood!

tomorrow I will bring you my music box
... my cassette player ... ?
where did I put ...
huh ?
the wind is blowing
none ....
um ?
someone may have just died not far from here
how creepy !!
I don't think so
...
in that

because it is a way to say good bye
you, what are you doing here ?
and first of all, we didn't ask your opinion !!
what do you want ?
ah ...
well ...
!
but this belongs to Lady Yingyo !!
you stole it ?!
no, she had forgotten it there ..
we know very well you spend your time to observe her !!
we'll take you to the police station !
hey !
stop arg...
BLAM

Leave me alone !!
I can go back home from here all alone
but ...
...
Lady Ningyo
I am going back home
eh ?
but ...

where re you ?
clench
again this scent ...
are you here ... ?
don't be afraid
I just came to bring you back this
you ...
repaired it
You deleted the content to put an arrangement of various programs in it, don't you ?
that's why I thought I better not give it to your mother
It's a precious object that connects you to the outside world, right ?

thank you
good -bye
ah
wait !!
who are you ?
what is your job ?
what is your name ?
my name ?
well, I am Kingyo*
Kingyo ?
Nobody likes you
I was told that it is better to not know you
however I..
They were not wrong
my life is worthless
in this city where the wind stopped blowing
Kingyo,
who are you talking to ?

good -bye
will you come back ?
I would like to thank you for this !
Kingyo...
in morning and evening, at specific hours.
he doesn't want anything more
which so many men have tried to touch me
he is really satisfied watching me from afar,
I wonder what he likes so much about observing me
In this case,
give me the permission to let me observe you

wh ...
?!
It's not worth playing the pretent-ous girl who is more superior than others !
you didn't see us coming, huh?
He has not arrived yet...
clench
be nice with us too
...
what are you doing ?!
stop it !!
tss

Are you alright ?
and you ?
they hit you, right ?
I am fine, thank you
what are you talking about ? Are you hurt ?
if I die ...
I wonder if the wind will blow until it will reach you
it's not the first time ...
that they treated me like this
...

don't talk about ... dying ...
it's just ... !!
it's just ... that I absolutely can't see anything !
neither the sky, nor the sea, or the flowers
not even my future... I'll never be able to see what I really want !
If it continues like this, I will just be a porcelain doll for the rest of my life !
all this makes no sense ... !!
Ningyo !!
you said you will marry the person
who can bring you something that you have never heard before, don't you !?

alright
but you don't have to marry me
...
you just have to give it a try to see what happens
I wondered if this rules also applies to me ... ?
to never talk about dying
I want you to promise me ...
In exchange,

By any means
and I will find something you have never heard before.
Since that day,
a week has passed without having news about him
my test may have been too difficult

a letter ... ?
my lady
it is for you
what is it ?
Dear Lady Ningyo,
how are you?
it took me a long time,
but I finally finished what I wanted to show you

to be honest,
I've know you for a long time
ever since I saw you for the first
time when I was going to earn my living at my job
go to the place
indicated on the map
tomorrow, at 4
I will wait for
you at my house
for me, who
have lost my f
amily and
could not continue
my father's job.
this time,
it's my turn
to give you hope
I made you a map
thank
you
but you
can
let me
off here

clang...
... Kingyo ?
He drew a path
He made it so that I can't get lost
by spreading objects on the floor
where is he ?
ah!
I reached the window ?
I think I can wait here
the clock rings 4 o'clock

join
me
soon
hurry!

I will make
you listen
to the
sound
...

That's the most beautiful in the world

the wind of the dead plays a melody that fills the world with hope
